

JUNGLE FIRE™

THE EXPERIENCE

Many years ago, a seasoned explorer discovered a spectacularly rich source of diamonds in the heart of the Amazon Jungle. He began collecting the diamonds for transport back to civilization but then tragedy struck. Malaria rendered him seriously ill and, with his delirium, the precious gems were left behind. Upon his recovery, he again set out into the deep jungle but mysteriously vanished without a trace – never to be seen again.

Each day for many years thereafter, the hot tropical morning sun would blaze down on this solitary collection of priceless gems and cast off brilliant shafts of color. This light shimmered and changed as it reflected off the diamonds and into the sky. Over the years, the villagers in the region would see these dancing colors in the sky and became superstitious of their source.

They named them... Jungle Fire!

Now, several generations later, you and your team, equipped with the necessary survival gear, are about to battle the perils of the Amazon in search of this fabled treasure. You will experience the impact of planning, resource utilization, teamwork, appropriate risk taking and the value of information gathering.
